

Construction has begun on the 20,000 CWT hard wheat flour mill for Miller Milling in Saginaw, Texas. The new milling equipment installation will be for 10,000 CWT with space for a future 10,000 CWT line.

The new facility will also include flour bins, truck loadout, packaging lines, rail loadout, a warehouse expansion, and a mill feed silo. Construction crews mobilized in February with substantial completion scheduled for September 2018.

Miller Milling is one of the largest milling operations in the U.S. with six strategically located facilities across the country. Miller Milling was founded in Minneapolis in 1985 and since has been a leader in the evolving milling industry. They got their start providing durum semolina to large customers through regional destination mills. In 2012, Miller Milling became a part of the Nisshin Seifun Group of Japan.

This will be the third facility that Todd & Sargent has built for Miller Milling, following the design, engineering, and construction of their facilities in Winchester, Virginia, and Fresno, California.

NOTES FROM JON

2017 is an exciting time at Todd & Sargent. As my role transitions from Executive Vice President to President, we look forward to a strong future and continuing the legacy of those who have gone before us. I am continually impressed by two components that have built our legacy over our 59-year history: 1) How dedicated our people are, and 2) How great our clients are.

We are also privileged to serve what we consider to be the best clients in the industry: individuals and organizations who truly value relationships and focus on partnership above all else. Our clients feed the world and help drive positive change across the globe; we're proud to do our part to help ensure their continued growth and success.

At Todd & Sargent, we remain committed to our employees' development so that they can continue serving the best clients. A sincere thank you to both our people and our clients for giving Todd & Sargent the opportunity to do great things every day.

GRAINSCONNECT CANADA

// LOCATION >

MAYMONT, SASKATCHEWAN

Todd & Sargent Canada crews continue construction on GrainsConnect Canada's new shuttle train loading terminal in Maymont, Saskatchewan. The 4-pack workhouse slip and roof pours were performed last October.

Current work includes assembly and installation of the top distribution and cleaning equipment, installation of the bucket elevators, receiving, and transfer equipment; and installation of the bulkweighing system. Erection of the pre-engineered metal building that houses truck receiving, control room, and additional reclaim/separating equipment will also begin this spring.

The 6-pack annex slip will take place the end of April.

The crew includes General Foreman Levi Joannette; Foreman Cody Fraser; Leadmen Darcie West and John Stace; Crew Leaders Josh Gilson and Eric Farmer; and Safety Coordinator Ray Joannette.

// PROJECT >

GRAINSCONNECT CANADA

// LOCATION >

REFORD, SASKATCHEWAN

Construction is under way on the high-speed train loading terminal for GrainsConnect Canada. The project is being built near the town of Wilkie, 130 kilometers west of Saskatoon, in the Rural Municipality of Reford, Saskatchewan. This site will have over 35,000 tonnes of slipformed concrete storage capacity with the ability to load 130 rail cars in 10 hours. Systems included will be receiving at 625 MTPH, cleaning at 240 MTPH, and rail loadout at 2,000 MTPH.

The piling has been installed. Crews are pre-building slipforms and beginning the below-grade concrete work for the boot pit and reclaim tunnel.

The crew includes General Foreman Thomas Alexander and Foreman Dwight Teale.

SYMPATHY

Our deepest sympathy goes out to **Tom Alexander** (T&S General Foreman), his wife **Sharon**, and their family on the loss of his mother, Beverly Ann Alexander, of Henderson, Kentucky, on January 11, 2017.

Our deepest sympathy goes out to **Wayne Henderson** (T&S Project Manager), his wife **Sheila**, and their family on the loss of his mother Esther Forsland, of Des Moines, Iowa, on February 27, 2017.

Our deepest sympathy goes out to **Kyle Greenwood** (T&S Engineering), his wife **Megan**, and their family on the loss of his grandmother, Elizabeth Greenwood of Winterset, Iowa, on March 4, 2017.

EMPLOYEE SPOTLIGHT

Chris Crum

Todd & Sargent would like to congratulate and thank Chris Crum for 10 years of service and hard work as the Todd & Sargent IT Manager. He started with Todd & Sargent on January 8, 2007. Chris lives in Boone, Iowa with his two cats, Theo and Cache. His hobbies include collecting family banking history, firearms and drones.

Jeff Moyer

Todd & Sargent would like to congratulate and thank Jeff Moyer for 19 years of service and hard work as an Engineering Drafting Leader. He started with Todd & Sargent on February 20, 1998. Jeff and his wife Rhiannon live in Boone, Iowa and have four children, three daughters-in-law, one grandson, and six granddaughters. Jeff loves spending time with family, motorcycles, working on home projects, and woodworking. He has a big passion for cooking and grilling barbecue for which he makes his own barbecue rub and sauce.

// PROJECT >

MILLER MILLING

Todd & Sargent crews mobilized on site mid-January and began work on the new 20,000 CWT flour mill for Miller Milling in Saginaw, Texas. The over-excavation has been completed, the main slab has been poured, and the crew is currently building slipforms in preparation for the mill process tower slip to take place in late spring 2017.

// LOCATION >

SAGINAW, TX

The crew includes Superintendent Randy Hullinger; General Foreman Dale Mittlieder; Foremen Dana Black, Efrain Perez-Escobar, Ismael Acosta-Martinez, John Deepe, Eduardo Alamillo, Patricio Dominguez-Rosas, and Lyle Sondgeroth; and Leadmen David Ramirez, Fidel Perez-Escobar, Manuel Figueroa, Ramon Herrera-Martinez, Jose Pimentel-Gil, Ruben Pimentel-Gil, Antonio Renteria, Juan Gonzalez, and Domingo Perez-Diaz.

The Todd & Sargent crew poured the flour mill main slab foundation on March 22, 2017. The main slab is approximately 100' wide x 180' long and incorporates 1,224 yards of concrete. Due to congestive traffic in the Dallas-Fort Worth area, crews began pouring concrete at 1:00 in the morning and were finished by noon.

// PROJECT >

WAYNE FARMS

// LOCATION >

OZARK, AL

At the Wayne Farms 25,000 TPW poultry feedmill in Ozark, Alabama, crews are currently working on start up and punchlist items. Wayne Farms is one of the largest poultry producers in the U.S. They own and operate 11 fresh and prepared food facilities throughout the Southeast and produce more than 2.6 billion pounds of poultry products each year.

The crew includes Superintendents Randy Durby, James Beck, and Scott Tessum; General Foreman Ricardo Roque, Jr.; Foremen Jesus Garcia, Eric Gay, Jose Arias, Gavino Quintero-Rios, Jose Reyes, Juan Marquez, Cristian Miranda, and Bernabe Rodriguez-Hernandez; and Leadmen Juan Manuel Lopez-Perez, Sonny Williams, and Noe Cornejo-Morales.

CHELSEA MILLING

// LOCATION >

CHELSEA, MI

Todd & Sargent crews are finishing their work on both batching systems and the mix tower constructed for "JIFFY" Mix (Chelsea Milling Company) in Chelsea, Michigan. Shown above are the feeder screws and scale hoppers located over the Buhler mixers.

The crew includes Superintendent Epifanio Gudino; General Foreman Diego Avitia; Foremen Mauro Gudino-Maqueda, Joaquin Dominguez-Monroy, and Luis Andrade-Daza; and Leadmen Hans Evers, Edgar Avitia-Molina, and Nathan Gudino.

Chelsea Milling Company was established in 1901 as a traditional flour mill. By early 1930, they had expanded into the retail prepared baking mix market with their first "JIFFY" Mix product. Today, "JIFFY" is the market share leader in retail prepared muffin mixes. In addition to their retail products, they produce mixes for the food service and institutional markets.

PERU, IN

SAFETY CORNER

At the end of fourth quarter, T&S jobsites were provided with lunches to recognize their ongoing commitment to safety. Pictures from multiple events are shown below. We appreciate everything that all of our people do each day to stay safe and encourage everyone to keep up the good work!

Todd & Sargent has been awarded the contract to design, engineer, and construct a 4,800 ton per week swine feedmill, near Peru, Indiana, for OP Nutrition, LLC (a subsidiary of Indiana Packers).

The feedmill includes 330,000 bushels of whole grain storage, over 2,000 tons of bulk ingredient storage in 20 bins, and over 1,200 tons of finished feed bulk storage in 12 bins. Batching will be 120 TPH using a 6-ton twin shaft mixer and one 20-bin micro ingredient system with a 4-bag tote hoisting assembly. This facility also includes a 55 TPH pelleting line and considerations for a future 55 TPH pelleting line. Superintendent Robby Shell and crew have mobilized on site to begin piling and to pre-build slipforms.

Indiana Packers is a fully integrated pork production company. Since the founding of the business in 1991, Indiana Packers has grown to become a national leader in the processing of premium pork products and markets their retail product under the "Indiana Kitchen" brand.

SANDERSON FARMS

LAUREL, Miss. (March 16, 2017 Sanderson Farms Press Release) Sanderson Farms, Inc. announced today that sites located in Smith and Wood Counties, Texas, have been tentatively selected for construction of a new feed mill, hatchery, poultry processing plant, and waste water treatment facility, subject to the contingencies discussed below. These facilities will comprise a state-of-the-art poultry complex with the capacity to process 1.25 million birds per week for retail chill pack customers. At full capacity, the complex will employ approximately 1,700 people, will require 80 contract growers, and will be equipped to process and sell approximately 375 million pounds of dressed poultry meat annually at full production.

Sanderson Farms expects to invest approximately \$200 million in the new Texas complex and anticipates that associated

// LOCATION >

MINEOLA, TX

contract growers will invest an additional \$135 million in poultry production facilities. The company expects to begin construction of the facilities during summer 2017, with initial operations of the new complex to begin during the first fiscal quarter of 2019.

Commencement of construction of the new complex is subject to completion of tax abatement and incentive agreements with public subdivisions and the state of Texas and obtaining final required permits from appropriate agencies.

Todd & Sargent designers and project engineers are working closely with Mr. Bob Billingsley to provide final construction engineering for the new feed milling facility.

Our Mission

Todd & Sargent Inc. is in business to serve the engineering and construction needs of our clients to help ensure their continued growth and success.

Upcoming Trade Show

April 11 - 14, 2017 - Booth #419
